Project Manager in the **Arpinge Group** since March 2017 (since May 2023 in the *Parkinge* subholding where he has held the role of *CEO of the companies in the Parking & Mobility Sector since 2019*), previously he worked at Saba Italia SpA of the Saba Infraestructuras Group of Barcelona, one of Europe’s largest car park management operators, first for the evaluation department of investments and after for the operations department. At Saba Italia he oversaw major acquisitions in the car parks sector, among which Parcheggi Arena in Verona and SIPA (Perugia, Milan, Bologna and Genoa). In the same period, he successfully achieved economic and financial rebalancing of several concessions and the award of important parking managements.

Working at Saba Italia he also held some managing positions in subsidiaries and associate companies.

Between 2001 and 2005 he worked at Banca OPI SpA (now part of Banca IMI) of the Intesa Sanpaolo Group for the Infrastructure Department, structuring major project financing transactions in the infrastructure sector (mainly motorways and public transports) both in Italy and abroad.

In 1999 he began his career at Centro Sviluppo Materiali SpA as a researcher.

He also wrote some articles and papers on Public-Private Partnership.
